

SILICON SEVICH REMOVE OIL

Application:

- Easily remove adhesive residue from operation surfaces of interlining fusing machines and press irons
- Reduces further sticking of adhesive and preserves the belt surfaces.
- Contains pure silicone and thus improves mold release.
- Does not damage machine surfaces.

Direction for use:

- Sprinkle SEVICH evenly onto the heated surfaces.
- Permeating the residue the wipe off completely with a cloth.

Warning:

- Use with adequate ventilation avoid contact with eyes and skin. In case of eye contact, flush immediately with plenty of water for at least 20 minutes. If discomfort persists, see a physician.
- Do not puncture or heat or store at temperature above 120 °C as container may explode.
- Avoid prolonged exposure to sunlight.

Ingredient:

- Silicon liquid : 92%
- Water : 8%
- Net weight : 1 Kg
- Lot no :200810
- Best before date: not term
